FEMA's National Urban Search & Rescue (US&R) Response System Medical Team Specialist (MTS) Course is being presented this Summer by Disaster Medical Solutions (DMS) at the CRISIS CITY Center in Salina, KS. This class while not presented by the FEMA Office has been granted equivalency and is strictly structured under FEMA standards and curriculum, designed to fulfill the initial training requirements for Urban Search and Rescue Task Force Medical Specialist and Medical Team Managers. Team deployments, medical operations, health/safety, confined space medical and rescue techniques are addressed. This course meets all of the requirements for US&R Medical Team physicians, paramedics, and healthcare professionals.

[FEMA US&R Course Code 9P3131](#)

Course Host: "Crisis City" Training Center. The facility is an advanced world-class one of a kind premier disaster training facility with realistic, scalable, and integrated capabilities to ensure mission success for medical and rescue team members alike. A world class, multi-discipline, multi-agency training environment complex for local, state, and federal responders, EM professionals, public and private industry safety professionals, and military operations in support of civil authorities during disaster response.

Course Delivery: Disaster Medical Solutions advances inter-agency response capabilities for incidents affecting public safety through specialized training, education, consultation, and exercise support.

Course fee: \$3,095 includes, CBT Course 9P3130, course materials, certificates, and CME's.

On-site housing and meal plan are additional and available at discounted rates through Nickell Hall, National Guard facility.

Course Registration: info@disastermedicalsolutions.com (*limited availability*)

Currently open to Federal, State and Local First Responders, Military, and Hospital Personnel.
